IN OIL'S DOMAIN.

Henry Oil Company Gets Another Fine Producer.

IS LOCATED ON THE HOLTSCLAW

Parm, and is Claimed to be Good for Twenty Barrels an Hour-Fisher Com pany Brings in a 100 Barret Well on the Wood Farm-Activity in the Benwood yield Continues Without a Let-Up-Review of October Work.

Intelligence was received in Sistersville late Thursday night to the effect that the Henry Ott Company had drilled in its No. I on the Holtschaw farm, and that it was showing up for a fine well, making in the neighborhood of twenty barreis an hour. Yesterday morning the report was verified, and the well is making even better than twenty barrels an hour, and it is believed that it will in production when it has ed a little deeper into the and. wase in production when it has
drilled a little deeper into thesand,
well is located a little to the northto the first well drilled in on the
T. Wood farm by the Fisher Oil
pany, and is a slight extension to
west. It is a good well and will be

The off fields of West Virginia for the menth of October show great activity. according to the report which has just been completed. The report shows that has been a total of 115 wells comof this number there Trenty-as dry holes, leaving a total of electy-size dry holes, leaving a total of electy-size producing wells with a local of new production amounting to less barsis. The appended table will that the result of the work done during the month.

Districts, Wells Dry Product Drilled, Holes, Wells. Hannington 25 Wand dounty 24 Princets on 7 2014 Total 115 26 33 2073

The indications for the present month the hast there will be more work done than for nilong time. There are a great many new wells being started, which have not been included in the following half-, which gives the wells driling and the rigs up.

is be seen by this table that there I wells drilling and 83 rigs up. It ways believed that there are more ories up now, and that there will leave than 350 or 400 wells drilling as up by the end of the month, howing of the fields for the past has been better than for any for some time and the indications at November will be even better. mora for some time and the indications are not November will be even better. Another great strike in the oil field to support of yesterday morning, and this time for the strike is in West Virginia territory. The well in question is that time factor oil Company, on the Hardman Livingston tract, in the development in the vicinity of Hebron. The well was drilled to the top of the sand has sight and commenced to flow, but the drill was kept going and yesterday yearing sight and made about 350 harrels of all, and it is believed that as soon as the said has been completed and contain the first property of the sand in the selection of the western part of the Hebron development and its slightly shead of anything that has been drilled in there

so far. This makes the Hebron development look equally as good if not better than anything in the southwest at the present time. The Hebron pool is a freak in a certain sense. There are four distinct sands, in all of which a good pay streak is found, and if a man has territory there he is pretty certain of setting something out of it. The first pay is found in the Cow Run or shallow sand a depth of about 700 feet, and the next is in the Keener sand, which is a short distance above the Big Injun, and the last pay that has been found so far is the Hig Injun sand. So far there have been no wells drilled to the Berea Grit, and if there had been there is a cahnoe that some oil would be found in that formation. This is the most proline field in pays in the different sands that has ever been known in the oil country, and in that way is the freak of the business.

The Carter Oil Company will have its well, mentioned above, completed in a day or two, possibly by Saturday afternoon, and when it has been connected up and put in good, shape it is believed that it will make the best well that has been drilled in the southwest for some time, not excepting the wells that have been drilled in the southwand in the annethed up and prilled in the southwest for some time, not excepting the wells that have been drilled in the southwand in the same company has also drilled in No. 1 on the

wells that have been drilled in over at Benwood.

In the same territory the same company has also drilled in No. 1 on the Charlotte Livingstan farm, which is located some distance from the other well, sand has a well that will be good for a little better than 100 barrels when it has been completed.

Ramey & Co.'s well on the Stalder farm, over in the Benwood, Ohlo, territory, has met with an accident in the shape of a streak of water. The well was drilled down, and the 6% casing put in, but water was encountered and they have had to put in a string of 4% casing, and this will delay this well a short time. It will probably reach the sand the latter part of next week. This is one of the most important wells drilled over in that section, as it is the farthest ahead of developments to the east, and for this reason it has been attracting a lot of attention.

The Caster Oil Company has company to the contention.

for this reason it has ben attracting a lot of attention.

The Carter Oil Company has completed a well at Purgatory, Tyler county, and it is reported that it is a good producer. It is in wildcat territory, and if the report received is true, it will open up a big lot of undeveloped stuff.

There was no change in the price of credit balances yesterday, remaining at \$1.17.

Sabbath Notes.

To-morrow at the Fourth Street M. E. church, the pastor, Rev. Dr. J. L. Sooy, will preach at 19:30 a. m. on "The Divine Indwelling," and at 7:30 p. m. on "Practical Aspects of an Endless Life."

Clerk Edward Crockard, of the whar boat, has been mentioned as a probable candidate for wharfmaster before the Republican primaries.

The Virginia was delayed below by fogs and did not pass up yesterday until 11 a. m. The Hen Hur was delayed, also, and passed down at 2 p. m.

Another bridge will be added to the net-work of them that besets the path of stembonts in this stretch of the river. The highway bridge across the river between Benwood and Bellaire will soon be started. Had Mr. Bryan been elected the bridge would not have been built.

The New Packet.

The Pittsburgh and Cincinati Packet Company has decided to build its new beat, and has awarded the contract to the Marine Ways, of Cincinnati. The new beat will be 235 feet long and forty-four feet beam, with a six-foot hold. It is to be equipped with a complete electric light plant. Work has already been beau on the beat and in his com-If is to be equipped with a consequence destric light plant. Work has already been begun on the boat, and in its construction the model of the Virginia will be closely followed, with the addition of many new improvements. The boat will be ready to launch early next April. The Cincinnati Commercial Tribune suggests the name Ohlo for the new boat. There is not a boat of this name now running on this river. Those of former days bearing this name were all successful. Aside from this, Ohlo should be recognized, considering that most of the trade handled by this line is shipped from points in that state, adds the Commercial.

Gladness Comes

With a better understanding of the transient nature of the many phys-ical ills, which vanish before proper efforts-gentle efforts-pleasant efforts-rightly directed. There is comfort in the knowledge, that so many forms of sickness are not due to any actual dis sickness are not due to any actual dis-ease, but simply to a constipated condi-tion of the system, which the pleasant family laxative. Syrup of Figs, prompt-ty removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its bene-

organs on which it acts. It is therefore all important, in order to get its beneficial effects, to vote when you purchase, that you have the genuine article, which is manufactured by the California Fig Syupu Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives or other remedies are then not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely seed and gives most general satisfaction.

TWO MATTERS

Of Importance to the Community will be Discussed at Meeting of

THE CHAMBER OF COMMERCE

Next Monday Evening-The Meeting wa to Have Been Held this Afternoon, but the Date was Changed-Report of the City Charter will be Heard and Dele gates to the River Improvement Meetin will be Appointed.

In the Intelligencer yesterday morning it was stated that the Wheeling chamber of commerce would hold a special meeting this afternoon for the purpose of selecting delegates to the second annual meeting of the Ohio Valley Improvement Association, which convenes next Tuesday morning in Pittsburgh, Yesterday it was decided to postpone the meeting until next Mon-day evening at 7:30 o'clock because there is other business for the consideration of the body which can be brought up at that time.

In addition to naming a delegation to

In addition to naming a delegation to the Pittsburgh river improvement meeting, the chamber will hear the re-port of the chamber of commerce mem-bers of the new city charter commit-tee. It is anticipated that the influence of the chamber will be put forth in favor of the adoption of the new char-ter, which it is claimed, will greatly improve the method of governing the city.

improve the method of governing the city.

A large attendance is desired at Monday evening's meeting.
Referring to the meeting of the association next Tuesday, the Pittsburgh Commercial Gazette says: The chamber of commerce held a meeting in the association rooms yesterday afternoon, which was very well attended. Captain John F. Dravo, chairman of the committee on rivers and harbors, read a letter from the Cincinnati (O.) association, which stated that the Ohio Vailey improvement association would be here next Tuesday to hold their convention.

Variety Lobo Flading C. Manager Lobo Planting of the city of the control of the convention.

Mesors, John Bindley, G. H. Ander on, G. A. Keiley, W. S. Shallenberge Mesura, John Bindley, G. H. Anderson, G. A. Keiley, W. S. Shallenberger and Captain Dravo were appointed a committee to receive the association and will prepare a course of entertainments for their suests. The meetings will be held in the chamber rooms, and very important business will be attended to. A new bridge law will be the most important feature.

A discussion arose as to who could elect new members, the board directors or the association. It was decided the board bad the right, and that it was the highest body of authority.

nce down, disease finds an easy enince.
If there is a weak spot in the body, dis-

trance.

If there is a weak spot in the hody, disease.germs will find it. They will lodge right in that spot and unless they are driven out at once, will increase and multiply and grow into seriousness. Weakness is a predisposition to dinease. Whether the weakness be local or general, it is dangerous. Good healthy strength all over the body is the best safeguard against disease. Debility of any kind is a direct invitation to serious sickness. The reason that Dr. Pierce's Golden Medical Discovery cures 98 per cent. of all cases of consumption if taken in the early stages of the disease, is that it puts the whole body into a hearty, healthy condition. The poisonous tubercular matter is thrown off by the lungs, and the pure, rich blood coursing through them, quickly atops the inflammation, heals the broken membranes and makes the lungs perfectly strong and sound. Consumption is marked by wasting away of the bodily tissues and vice versa. A wasting of the flesh brings on consumption. Doctor Pierce's Golden Medical Discovery induces the accumulation of sound hard tisques and vice versa. A wasting of the flesh brings on consumption. Doctor Pierce's Golden Medical Discovery induces the accumulation of sound, hard, bealthy flesh. It increases the appetite and the capacity of the digestive organs for the assimilation of food. It is a purifier, a tonic and a powerful curative remedy, all in one bottle. All who will send edy, all in one hottle. All who will send their addresses, and twenty-one cents in postage atampa, to cover wrapping, to World's Dispensary Medical Association, Buffalo, N. Y., will receive by mail a book of 1000 pages, which tells all about the "Golden Medical Discovery."
